The project will follow the approved environmental planning process for Group 'B' projects under the *Class Environmental Assessment for Provincial Transportation Facilities* (2000).

A Transportation and Environmental Study Report (TESR) was prepared in August 2005 and received environmental approval in July 2007. A review of this TESR will be conducted for this project. A Design and Construction Report (DCR) will be prepared to document environmental investigation, environmental impacts, proposed mitigation measures and commitments to future work. This document will be made available for public review upon completion of Detail Design.

Project information will be posted and updated on the project website: www.401expansion-mississauga.ca

A Public Information Centre (PIC) will be held for this project to present details of the proposed Highway 401 widening, construction staging, and mitigation measures to address potential environmental impacts. Notice of the PIC will be provided in local newspapers and on the project website. The PIC is anticipated to be held in the summer of 2012.
